

## **NISLab's paper accepted by ICCCN 2009**

05/29/2009 15:34 by Web Master

Dr. Tran coauthors with Dr. Nguyen at Oregon State on the paper "Hop-Count based Techniques for Passive Target Localization in Sensor Networks" that has been accepted by ICCCN 2009, San Francisco, August 2-6, 2009. This year ICCCN 2009 received 387 submissions and accepted 115 full papers, a 29% acceptance rate.

See ICCCN 2009's technical program at <http://icccn.org/icccn09/>

Dr. Tran will travel to San Francisco to present this paper and also to chair the GridPeer 2009 workshop co-located with ICCCN 2009.
